Product brochure

- Toshiba's A3 colour systems impress with an outstanding document output at a speed of up to 50 pages per minute.
- Enhance your efficiency with tailor-made workflows, easily accessible via the fully customisable user interface.
- All models easily integrate into modern business environments and support cloud and mobile printing.

CONNECT. INTEGRATE. SIMPLIFY.

Technology for every office, delivering advanced functionality, ease of use and peace of mind.

Every business is unique. That's why Toshiba offers the latest customisable solutions that can be tailored to meet your needs. Toshiba solutions help you simplify complex tasks while managing diverse information —efficiently and safely to maximise your productivity.

Toshiba's latest series delivers on our promise of Together Information - our commitment to collaborate with clients to provide tailored, cost-effective solutions that meet your print, document management and content needs while helping you to meet your green objectives.

Superior document workflows with impressive colour output.

Don't restrict yourself. Colour can make all the difference and with Toshiba's e-STUDIO5015AC series you can expect high image quality. Combine this with advanced features and you have a multifunction system which covers even the most demanding needs.

- Advanced Toshiba e-BRIDGE Next controller technology for easy integration into IT environments and customisation of document workflows.
- > Impeccable, high-quality output with a resolution of up to 1,200 x 1,200 dpi.
- > High-volume consistency of colour across small and large print jobs.

ADVANCED TECHNOLOGY FOR MORE EFFICIENCY.

Businesses require a great amount of flexibility and the possibility to access information and data anytime from anywhere — the e-STUDIO5015AC series is ready for this.

Flexible integration with third-party applications, an embedded web browser and the support of cloud and mobile printing are just some of the features, which will enhance your efficiency and boost your productivity.

As each company has different ways of storing and sharing data, the colour systems can be equipped with apps, which meet your individual requirements or preferences. Whether you wish to connect to cloud services or local applications, we have the solution.

Cloud solution apps

- > e-BRIDGE Plus for Box
- > e-BRIDGE Plus for Dropbox
- > e-BRIDGE Plus for Google Cloud Print
- > e-BRIDGE Plus for Google Drive
- > e-BRIDGE Plus for OneDrive
- > e-BRIDGE Plus for OneDrive for Business1)
- > e-BRIDGE Plus for SharePoint Online1)
- e-BRIDGE Plus for Exchange Online¹⁾

Workflow solution apps

- > e-BRIDGE Plus for Barcode Scan
- > e-BRIDGE Plus for USB Storage

Environmental Protection

Protecting the environment is embedded in our corporate philosophy and we ensure that our products comply to the highest environmental standards. With ENERGY STAR certification, these devices help you to save money and protect the environment through their energy efficiencies. In addition, our devices arrive with you carbon neutral as all the carbon from procurement, production and shipping is offset by carbon reduction projects around the world as part of our Carbon Zero Scheme.

Security for your business

Protecting your business' data is at the top of our minds while designing our products and we offer a large range of built-in and optional features to help enhance your security and aid GDPR compliance:

- The self-encrypting Toshiba Secure HDD provides top level security and makes unauthorised access to the data virtually impossible.
- Card readers not only provide an extra layer of security but also give direct access to the user's print jobs. We offer a large choice of card readers with different features to ensure your needs are covered.
- By adding optional security functions the systems conform with HCD-PP v1.0 and are Common Criteria certified.

1) Embedded app for Microsoft Office365

COMPACT AND FULLY CUSTOMISABLE

The e-STUDIO5015AC series comes with a small footprint packed with industry-leading technology and innovations. Designed to help workgroups connect, integrate and simplify processes the systems have an unparalleled set of features.

Auto Calibration ensures perfect image quality with consistent colours and crystal-clear lines from the first to the last page.

RGB Colour Substitution allows accurate colours with office applications so that your documents are printed exactly the way you want.

Multi Station Print Solution allows you to send print jobs from your desktop and retrieve them at up to 50 different MFPs by authenticating at that device, e.g. by simply swiping your badge.

Embedded Optical Character Recognition (OCR) simplifies the creation of searchable PDFs and editable document formats such as Microsoft Word.

Scan and Fax Preview allows you to review, rotate and modify your scanned documents or incoming faxes before saving or printing them.

Scan to USB is great for working with your documents when on the go. Plus, with the option to create PDF/A-2 files your documents are ready for long-term archiving.

Print from USB for quick and easy printouts. If necessary, the MFP will automatically scale your documents to fit the available paper size.

E-mail Direct Printing can automatically print attached documents from e-mails sent to the MFP.

Barcode Printing allows you to send print data from your ERP system directly to the MFP. The barcode sequence is automatically processed and printed without the need of additional middleware.

CONFIGURATION

HIGHLIGHTS

Mobile Printing

Easily connect to these systems with your mobile devices via AirPrint, Google Cloud Print or the Mopria Print Service. By adding the optional Wi-Fi module you can unleash even more mobile print and scan features.

Unique User Experience

The large and fully customisable user interface makes the MFP intuitive to use. Simply swipe through the menu and select the feature or function you need and modify the screen to suit your individual preferences.

Dual Scan Document Feeder

An option which holds an amazing 300 originals and boasts an impressive 240 images per minute (ipm) by scanning both sides of the page in a single pass.

SPECIFICATIONS

General
